PCN

PEST CONTROL NEWS®

Pest Control News (PCN) is one of the longest standing publications in the pest control industry with a global reach and readership. Voted the number one magazine for the pest control industry, PCN has been established for over 30 years. Published in the UK, Germany, Spain, Benelux and Poland. PCN is the leading voice for the industry with its finger firmly on the pulse of what is happening in pest control and public health.

The editorial team, which spans across Europe, is made up of industry professionals and academics.

PCN isn't just a magazine. Its popular website and News Desk have become trusted sources for breaking the latest news between issues.

PCN connects the Pest Control Industry across a number of platforms.

Print

PCN has been in print for over 30 years and is a trusted publication for reporting on industry news. In each issue there are a wide range of articles which support all levels of people working in pest control. In each issue you will find articles which have been written by pest control professionals, academics, marketing experts and experienced journalists.

PCN is mailed out to over 6,000 subscribers and is printed in high quality full colour with striking imagery. Each PCN issue has a number of advertising opportunities which are listed below. Our advertisers find that working with us is a beneficial part of their overall marketing strategy.

PCN at a glance:

- Over 3 decades of reporting on the pest control industry
- Wide range of experienced writers
- Editorial team spanning Europe
- Trusted source of advertising
- Pre PestEx and PestTech Issues

Digital Website Advertising:

www.pestcontrolnews.com

All digital adverts will appear on the home page of the website, which is statistically the most visited page.

There are many additional opportunities you can take advantage of on the PCN website. We have a growing YouTube Channel, a popular job vacancies board and large online document library.

Literature in the PCN website downloads library

Our primary aim is to keep our readers informed of all news and guidance available in the pest control industry. For this reason we will place any guidance literature in the downloads library free-of-charge if you advertise with us. This is statistically the 4th most visited page of the website that attracts high traffic and visitors.

Social Media

PCN continues to be a leader in publishing industry news and articles on social media. With active profiles across Facebook and Twitter, we're dedicated to reaching out and creating a buzz about the latest news within the industry. PCN successfully engages with technicians, managers, local authorities and manufacturers on a national and international level.

With a growing audience across all of our social media platforms we're looking at new opportunities to partner with sponsors and look at developing campaigns to support their digital PR and marketing activities.
